Zipperer Beefmasters

Trusted Genetics – Cowman Proven – Ready to Work

The running Z brand represents so many things in the Beefmaster industry and history. First, Zipperer Beefmasters is one of the oldest Beefmaster Ranches in southern Florida and is located south of Clewiston, Florida. Second, Zipperer Beefmasters is spear headed by the first female President of Beefmaster Breeders Association in San Antonio, Texas. Third, Zipperer Beefmasters is guided by the 2003 Woman of the Year in Agriculture for the State of Florida. This outstanding woman who represents Florida agriculture so well is Jennie Lee Zipperer. Jennie Lee as most people call her has been raising cattle with her family since the 60's. Jennie Lee always has a forward-looking and productive plan for the ranch and that's why Zipperer Beefmaster is considered a premier breeder.

Zipperer Beefmasters is a top producer with proven and leading genetics. One of the ranch goals has always been to develop seedstock that offer high levels of "Z" Performance for the commercial cattleman. "Z" Performance as in top-rated EPD growth, easy calving, feed efficiency, good milking ability with beautiful udders, hardiness, easy keeping, and longevity. Our second goal for the ranch is bull power. We believe in investing in strong powerful herd bulls that are continuous improvers. These bulls are top quality, easy fleshing individuals with

a lot of natural thickness and proven productive genetics. They come from great cow families and, most of all, are profitable.

Florida is not an easy place to raise cattle.

It's boiling hot and we have mosquitoes as big as quarter's. It's tough here; so are our Beefmaster cattle.

Our cattle thrive in the harsh environment and that's why our "Z" cattle have done well all over the world. We ship semen and embryos internationally and right

here at home. Our bulls are CSS approved and ready to go to work for any herd.

Zipperer Beefmasters is dedicated to customer service. We value our customers and want every experience with Zipperer Beefmasters to be a good one. Please explore our website and contact us about how we can assist you in finding the best Beefmaster genetics for your operation no matter where you are. Whether you need 1 or 200, we can meet your needs. We encourage all of our customers to come to the ranch

Large number of commercial Beefmaster bulls for sale and ready to go to work.

for a personal visit and ranch tour.
